

I don't believe that I have failed the citizens of Lakeside. I have personally tried to work with the mayor and councilors. Some I have worked well with and others just have a hard time with change. To say that I have not accomplished anything is an untrue statement. The current council that I am on have done several things to improve the city of Lakeside. A certified waste water operator was hired, which brought the city into compliance with D.E.Q.. City business hours were changed to 8 am to 5 pm to better serve the public. A local attorney was hired which makes it possible for him to attend meetings and answer questions. When the city had an out of state attorney this was not possible and the city had to make expensive phone calls to stay in contact. Also, the city now has a sealed bidding process which follows our city charter. I feel that I have lived up to my promise to the citizens of Lakeside when I was sworn into office. I have the best interests of the city and its citizens in mind while I am serving as your councilor.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Clark Anderson', followed by a long horizontal line extending to the right.

Clark Anderson
