

In the 2008 election the good people of Lakeside voted into office four new councilors on a platform of *open and honest* government.

Five councilors have worked in harmony on their election promises. Without cooperation from Mayor Nelson we:

Instituted an open records policy,
A fair sealed bid process for expenditures,
An equitable personnel structure,
Hired an honest city attorney at substantial monetary savings,
Updated hiring policies to protect against litigation enabled by past
negligent hiring and retention practices

In opposition to this work has stood a Mayor intent on regaining control of the funds and power that he and his hand picked council previously enjoyed. To this end he and his "crew" have lied, coerced, bullied, and slandered city employees, counselors, and citizens alike.

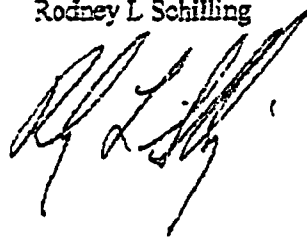

Mayor Nelsons is out of touch and out of control. He does not have the best interests of Lakeside at heart. He will attempt to destroy what he cannot control.

Please vote "no" to keep me in office where I will push for an even more open government.

Should the recall succeed, all the progress would be undone. The good old boys that were already voted out would once again control Lakeside.

President Lakeside City Council

Rodney L Schilling
